This Week's Code Patterns:

This week's theme is words commonly used in questions, along with words with the /w/ sound, which can be spelled 'w' or 'wh.'

There are a few tricky words on this list (which make sounds that we do not expect, given the spelling):

want and water (the 'a' says /o/)

where (the 'ere' says AIR)

who and whose (the 'wh' says /h/ and the 'o' says /oo/)

was (the 'a' says /u/)
